Conducted by:	South Asian Forum for Environment
Event supported by:	Earth Watch
Date:	10 th November, 2016
Time:	11AM-1PM
Venue:	BITM
Participants:	School children from schools across the city

Celebrating the occasion of **World Science Day** for Peace and Development on November 10th, South Asian Forum for Environment (SAFE) will conduct an educative cum interactive workshop for school children in Birla Industrial and Technological Museum, Kolkata.

The aim of the World Science Day is to ensure that citizens are kept informed of developments in science, while underscoring the role scientists play in broadening our understanding of the remarkable, fragile planet we call home and in making our societies more sustainable. What better way to make science and knowledge accessible to the future citizens than through our city's enriched Science Centres and Museums. Keeping this thought in mind the workshop, "**I Make my museum**", conducted at BITM will aim at providing our future leaders with the essential knowledge and knowhow to equip themselves with the art to preserve conserve and manifest a better tomorrow.

The workshop will comprise of the following:

- Scientific role play and brainstorming during, "I make my museum", encouraging innovations.
- Learning rapid testing of acidity, alkalinity, pH, turbidity as well as demonstrating the surging importance of GPS technology and instruments in Environmental Conversation.
- The significance of water and soil, the two essential components of any ecosystem especially that of wetlands will be showcased through pace experiments with scientific equipment's for students to learn the application of science for conservation and community.

SAFE is looking forward to an enriching and successful event with active acknowledgement of school children to observe World Science Day for Peace and Development, 2016.
